
Subject: Fire Update

Update as of 10:51 am (Tuesday) . . .

Controlled burns (aka "fire suppression tactics") will continue toward the west of Pinecrest area throughout the day.

Dave Ford, SCE, is asking any resident who has lost power or has a special need to call him (818-585-9149). Edison is willing to make adjustments on billing for those who have lost power or have need for special payment arrangement due to the fire situation.

Sheriff blocks are intact . . . no one will be allowed to go into the evacuated areas. We have heard reports that some deputies are more lenient than others as far as letting people who have proof of residency but keep in mind shifts change and the officer who was lenient might not be the same officer the next time.

The best advice . . . do not try to get into the evacuated area at this time. We are anticipating, though unconfirmed, a change in the status of the evacuation situation during the next 24 hrs.
